Section 1

INTRODUCTION & INVITATION FOR BIDS

1. Background & Introduction

- 1.1.** Telangana Power Generation Corporation Limited (hereinafter referred to as “TGGENCO”) is the state-owned electricity generation company responsible for generating power across Telangana, India. TGGENCO came into existence on June 2nd 2014 with the formation of the new state of Telangana and headquartered in Hyderabad, TGGENCO plays a vital role in ensuring reliable and efficient power supply. TGGENCO’s key functions including generation of adequate power for the state in the most efficient, economic, and ecofriendly manner, while accelerating power development in the state through planning and implementation of new power generation projects in the state, while ensuring modernization of existing assets. The company has achieved significant milestones, including successful implementation of multiple thermal and hydro electric power plants, enhancing power supply reliability and energy security of the state.
- 1.2.** With various global developments in technology and manufacturing, Renewable Energy (RE) has become the most affordable and cheapest source for meeting the energy requirements. Initial capacities have been successfully integrated to the grids so far, but with increasing penetration of RE in the energy mix, further capacity addition is expected to face issues due to variable nature and supply-demand mismatch.
- 1.3.** Going forward, the planning process for transition to a greener energy mix in the country as well as in the State of Telangana would entail integrating the planned Renewable capacity into India’s energy grid while ensuring its safety and reliability. Apart from Pumped Hydro Storage Plants, Battery Energy Storage Systems (BESS) are envisaged to be significant element of the future grid with increased share of renewable energy in accordance with the target of 500 GW of non-fossil-based capacity to be installed by 2030. BESS assets can provide the required flexibility in generation apart from ensuring the resource adequacy. Besides, Energy Storage Systems also have the potential to enable better utilization of transmission network and reducing network infrastructure footprint.
- 1.4.** TGGENCO seeks to utilize energy storage systems, on a “On-Demand” basis, suited to the requirements of the State DISCOMs during the peak and off-peak hours. In view of the above, TGGENCO hereby wishes to invite proposals for setting up of Standalone Battery Energy Storage Systems (BESS) connected with the State Grid, for an aggregate storage capacity of 500 MWh (250 MW x 2 hrs) with complete 2 cycles charging/discharging operation of BESS. TGGENCO shall enter into a Battery Energy Storage Purchase Agreement (BESPA) with the successful Bidders selected

based on this RfS, for providing Energy Storage facility to TGGENCO as per the terms, conditions and provisions of the RfS and BESPAs.

- 1.5.** Battery Energy Storage System Developers (hereinafter referred to as BESSDs) selected by TGGENCO based on this RfS, shall set up the BESS on Build Own and Operate (BOO) basis in accordance with the provisions of this RfS document and standard BESPAs. BESPAs documents are available for download from the portal <https://www.bharat-electronictender.com>

- 1.6.** The Bidders will be free to avail fiscal incentives like Accelerated Depreciation, Concessional Customs and Excise Duties, Tax Holidays etc. available if any for such Projects. The same will not have any bearing on comparison of bids for selection. As equal opportunity is being provided to all Bidders at the time of tendering itself, it is up to the Bidders to avail various tax and other benefits. No claim shall arise on TGGENCO for any liability if Bidders are not able to avail fiscal incentives and this will not have any bearing on the applicable tariff. TGGENCO does not however, give a representation on the availability of fiscal incentive and submission of bid by the Bidder shall be independent.

 - I. TGDISCOMs will schedule charging of the BESS with equal amount of energy plus energy expected to be lost as conversion losses (determined from the guaranteed Round-Trip Efficiency (RtE) of the system).

Illustration: For a Project / Contracted Capacity of 50 MW/100 MWh, assuming an RtE of, 85% TGDISCOMs shall supply charging power to the tune of 117.7MWh, to expect a discharge of 100 MWh as per the desired schedule.
 - II. Energy scheduled for discharge in a given cycle during a year shall be more than or equal to the Min. Dispatchable Energy Capacity at the End of Year as specified under **clause 8.1 (e) 4** in this Clause.
 - III. Contract capacity shall be the project capacity at delivery point. TGDISCOMs shall provide the charging energy factoring the RtE, as per specified RtE in RfS.

The BESSD shall guarantee a **minimum system availability of 95%** on annual basis. The BESSD shall pay the liquidated damages for shortfall if any to TGDISCOMs. Amount of such liquidated damages shall be twice the Capacity Charges for the capacity not made available.

The Monthly Average Availability shall be calculated for each month. On the basis of monthly Availability, average of each month taken for calculation of Annual Average Availability. While considering Annual Average availability, only lesser then 95% or up to 95% Monthly Average Availability to be added to derive the Annual Average Availability. The illustration is provided as under,

Illustration:

3	93%	93%	
4	97%	95%	
5	93%	93%	
6	98%	95%	
7	95%	95%	
8	92%	92%	
9	96%	95%	
10	95%	95%	
11	91%	91%	
12	90%	90%	

2. Availability of the Project shall mean the ability of the BESS to execute a function i.e. charging or discharging, when called upon to do so, as per the schedule or signal provided by the off-taker, subject to the minimum system ratings specified herein. In addition, the BESSD shall also demonstrate, on

annual basis, 100% of the minimum dispatchable Capacity of the BESS as required under **Clause 8.1.e.4** below.

For a given BESPA, the Annual availability guarantee shall commence from the date of fully commissioning of the system and shall be calculated as below:

Monthly System Availability = Mean of the System availabilities of all time-blocks during the Month in which the off-taker has scheduled power for charging/discharging the BESS.

where,

System Availability in a time-block=

$$\frac{\text{Actual Injection/Drawal } MU_i(A)}{\text{Scheduled Injection/Drawal } MU_i(B)},$$

where

- a. i refers to the ith time-block in the Month where Scheduled Injection/Drawal $MU_i \neq 0$.
- b. Actual Injection/Drawal MU_i is the Energy Scheduled for Charging/Discharging in the ith time block, in MUs
- c. Scheduled Injection/Drawal MU_i is the Energy Scheduled for Charging/Discharging in the ith time block, in MUs
- d. A and B shall be as per the DSM/UI Reports published by the SLDC or measurement at the Main ABT Meter at the Point of Interconnection.

System Monthly availability shall be calculated as per above, and System Annual Availability shall be calculated as illustrated in 8.1 (e).1

3. The BESSD shall guarantee AC to AC roundtrip efficiency (RtE) of system on monthly basis. The BESSD shall be liable for Liquidated Damages to the off-taker, if any, on account of excess conversion losses, based on the following conditions:
 - a. For $RtE < 70\%$, there shall be a liquidated damage @ APPC tariff of previous financial year of the Discoms of excess conversion losses considering system $RtE = 85\%$ and tariff payment for the corresponding month shall not be made to the BESSD;
 - b. For $70\% \leq RtE < 85\%$, there shall be a liquidated damage levied @ APPC tariff of previous financial year of the Discoms of excess conversion losses considering system $RtE = 85\%$;
 - c. For $RtE > 85\%$, there shall be incentive @Rs. 0.50 per unit of excess discharge of energy considering system $RtE = 85\%$

System Roundtrip Efficiency =

Sum Total of Actual Injection/Discharging MUSj in a month (C)

Sum Total of Actual Drawal/Charging MUSj in a month (D)

Where,

j refers to the jth month in a year;

$D \neq 0$;

$D \leq 2 \times E_{\text{BESS}} \times (MD_{n-1} - (MD_{n-1} - MD_n) \times j/12) \times (\text{Number of days in the } j\text{th month}) / R_{\text{TE}}$; E_{BESS} refers to Energy Rating specified in **Clause 8.1.b).** above;

MD_{n-1} refers to minimum guaranteed dispatchable energy at the end of the previous year (as a % of Capacity at the COD specified in **Clause 8.1.e.4.** below);

MD_n refers to minimum guaranteed dispatchable energy at the end of the current year; R_{TE} refers to the guaranteed Round-Trip Efficiency under the BESPA;

C and D shall be as per the DSM/UI Reports/State Energy Account published by the SLDC or measurement at the Main ABT Meter at the Point of Interconnection.

Note:

- The Scheduled capacity shall be subject to the System Power Rating specified in **Clause 8.1.a). & 8.1.b)** above.
 - The BESSD shall take separate, metered connection for the Auxiliary Power load of BESS.
4. Taking into consideration capacity degradation, the minimum dispatchable energy to be made available by the BESSD at the end of a given year shall be as follows:

Year	Min. Dispatchable Capacity at the end of Year (as a % of Capacity at the Beginning of Life/Final COD)
1	97.50%
2	95.00%
3	92.50%
4	90.00%
5	87.50%
6	85.00%
7	82.50%
8	80.00%
9	78.50%
10	75.00%
11	72.50%
12	70.00%

5. The nameplate ratings shall be achievable during discharge for the full range of environmental conditions at the project site when the battery is fully charged. In any case, the BESS shall be capable of being discharged at reduced power levels from that specified above. However, the energy discharged from the battery shall not require to be greater than the nameplate watt-hour rating specified herein. For example, during the 3rd Year after COD, the energy scheduled for discharge from 250 MW capacity shall be more than or equal to $250 \times 0.925 \times 2 = 462.5$ MWh.
6. SLDC in consultation with TGDISCOM shall, in accordance with Applicable Laws and Regulations thereunder, issue instructions to the BESSD on behalf TGDISCOM for dispatch of electricity to the Grid during such period and in such volume as it may specify in its instructions. The BESSD shall clearly specify the maximum recovery times required to restore the BESS for functional availability between duty cycles. However, in no case, the same shall be more than 2 hour.
7. Operational Window: Operational Window shall mean the expected hours/duration of system (capacity) availability on each day during the term of the Contract, excluding:
 - a. Maximum BESS recovery time as specified in this document
 - b. Grid Outages (duly certified to this effect by the Grid Operator)
 - c. Planned Maintenance Outage duly informed by the BESSD to the off-taker with at least one month's prior notice, subject to total no. of planned outage period being not more than 34 hours in a two-month period.

BESSD will have to comply with the Charging and Discharging Schedule as intimated by SLDC. It is clarified that discharge of BESS shall take place subject to the transmission constraints at the TGTRANSCO substation. For example, discharge of power from BESS during peak Solar hours (say, 11:00 AM- 2:00 PM) may be subject to the Grid constraints.
8. In addition to above, the BESSD shall also submit Available energy Test Report for the Project capacity as per IEC 62933-2-1 on Annual basis.
9. It shall be the responsibility of the BESSD to make periodic replacements/replenishments of system capacities (to ensure annual guaranteed system ratings), if and when required, up to the Term of the Contract. Outage time as a result of replacement will also be counted as an "Accountable BESS Outage" for the purpose of computing BESS Availability.

Pursuant to the provisions above, the BESSD shall plan the dispatch of electricity and convey its availability for scheduling thereof by the SLDC and shall supply electricity in accordance with the provisions of the Grid Code and the Electricity Act, 2003. The BESSD shall adhere to all the technical requirements as brought out in Annexure-A of the RfS. The BESS shall conform to all the applicable regulations of TGERC and CEA Standards for connectivity, metering, communication with the grid operators, etc.

8.2. Shortfall in meeting Performance Criteria

Following provisions shall be applicable on the Contracted Capacity guaranteed to be offtaken by TGDISCOMs:

Subsequent to COD of full Project/Contracted Capacity, in case the annual Availability demonstrated by the BESSD is less than the minimum as specified above, such shortfall in performance shall make the BESSD liable to pay the liquidated damages to TGGENCO to enable TGGENCO to remit the amount to TGDISCOMs.

Liquidated damages on account of shortfall in meeting the minimum Availability criteria as per **Clause 8.1.e.1.**, will be computed as follows:

$$\text{Liquidated damages} = (A - B) \times C \times D \times n \times 2$$

where,

A is Guaranteed Annual Availability as per **Clause 8.1.e.i.** above;

B is Actual Annual System Availability, as calculated as per **Clause 8.1.e.2** above;

C is BESS Power Capacity;

D is Capacity Charges/MW/month as discovered through bidding process;

n is the no. of months.

In case the BESSD fails to meet the monthly RtE demonstration as per **Clause 8.1.e.3** above, additional Liquidated Damages for the unavailability of the required minimum RtE shall be applicable for the entire month.

However, this damage shall not be livable to extent the availability of system is affected due to Force Majeure event as specified under the agreement. An illustration to this effect is enclosed at **Annexure-D**.

9. Commissioning of Projects

The Commissioning of the Project shall be carried out by the BESSD in line with the procedure as per the BESPA. The BESSD shall commission the Project in line provisions of the Central Electricity Regulatory Commission (Indian Electricity Grid Code) Regulations, 2023, as amended from time to time. In line with this regulation, the BESSD proposing the Project, or its part, for commissioning, shall give to TGGENCO and the Buying Entity, a preliminary notice not later than 90 days prior and advance notice not later than 30 days

prior to the proposed commissioning date. TGGENCO may authorize any individual or committee or organization to witness and validate the commissioning procedure on site. Commissioning certificates shall be issued by TGGENCO after successful commissioning. The BESSD shall obtain necessary safety clearances from the Central Electricity Authority/CEIG/CTU prior to commissioning of the Project.

9.1. Part Commissioning

Part commissioning of the Project, without prejudice to the imposition of liquidated damages in terms of the BESPA, on part which is not commissioned, shall be accepted by TGGENCO subject to the condition that minimum part commissioning capacity for the 1st part will be 50% of the project capacity or 50 MW whichever is lower. The total number of instalments in which a Project can be commissioned will be not more than 3, i.e., 1st initial instalment of 50 MW or 50% of the project capacity as the case may be and 2 subsequent instalments.

However, the SCD will not get altered due to part commissioning. Irrespective of dates of part commissioning or full commissioning, the BESPA will remain in force for a period as per **Clause 21.2** of the RfS.

9.2. Commissioning Schedule and Penalty for Delay in Commissioning

- a. The Scheduled Commissioning Date (SCD) for commissioning of the full capacity of the Project shall be the date as on 18 months from the Effective Date of BESPA (for e.g. if Effective Date of the BESPA is 01.12.2024, then SCD shall be 31.05.2026).
- b. The maximum time period allowed for commissioning of the full Project/Contracted Capacity with applicable liquidated damages, shall be limited to the date as on 9 months from the SCD or the extended SCD (if applicable).
- c. In case of delay in commissioning of the Project beyond the SCD until the date as per **Clause 9.2b.** above, as part of the liquidated damages, the total PBG/POI amount for the Project shall be encashed on per-day-basis and proportionate to the balance capacity not commissioned. For example, in case of a Project Capacity of 150 MW capacity, if commissioning of 100 MW capacity is delayed by 18 days beyond the SCD, then the liquidated damages shall be: $\text{PBG amount} \times (100/150) \times (18/270)$. For the purpose of calculations of the liquidated damages, 'month' shall be considered consisting of 30 days.
- d. As an alternative to the above encashment of PBG/POI, the BESSD may choose to make a payment of the amount corresponding to the liquidated damages, directly to TGGENCO. The BESSD shall intimate to TGGENCO, its chosen alternative out of the two options, within 10 business days of intimation of the liquidated damages to the BESSD, as calculated by TGGENCO. In case no response is received from the BESSD until the lapse of the above deadline, TGGENCO may encash the PBG/POI for the amount as per the liquidated damages.

- e. In case the Developer chooses to make necessary payments in lieu of the liquidated damages, the said payment shall be credited to TGGENCO's account through NEFT payment, no later than 5 business days from the above intimation by the BESSD. In case of non- payment by the developer within the above deadline, the PBG will be encashed by TGGENCO on the next business day.
- f. In case Commissioning of the Project is delayed beyond the date as per **Clause 9.2.b** above, the BESPA capacity shall stand reduced/amended to the Project/Contracted Capacity commissioned, the entire PBG/POI will be encashed by TGGENCO, and the BESPA for the Project shall stand terminated for the balance un-commissioned capacity.
- g. It is clarified that for the purpose of commissioning, the Project Capacity shall refer to the rated capacity of the Energy Storage System as declared by the BESSD in the BESPA. Any reduction in the Project/Contracted Capacity on account of **Clause 9.2.d & f.** above, will have no bearing on the obligation of the BESSD to provide the Project/Contracted Capacity as per the BESPA.
- h. It is to be noted that delay in commissioning / operationalization of the BESS charging source shall not be admissible among the factors warranting an extension in SCD of the Project.

10.Delay in Commissioning on Account of Delay in readiness of evacuation infrastructure/Grid Access Operationalization

Subsequent to grant of connectivity, in case there is a delay in readiness of the STU substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the STU network until SCD of the Project, or delay in grant/operationalization of Grid Access, and it is established that:

- i. The BESSD has complied with the complete application formalities as per **Clause 7.10** above,
- ii. The BESSD has adhered to the applicable Regulations/Procedures in this regard as notified by the TGERC/STU, and
- iii. The delay in grant of connectivity by the STU and/or delay in readiness of the substation at the Delivery Point, including readiness of the power evacuation and transmission infrastructure of the STU network, is a factor attributable to the STU/transmission licensee and is beyond the control of the BESSD;

The above shall be treated as delays beyond the control of the BESSD and SCD for such Projects shall be revised as the date as on 30 days subsequent to the readiness of the Delivery Point and power evacuation infrastructure and/or operationalization of the Grid Access. Decision on requisite extension on account of the above factor shall be taken by TGGENCO.

In case of delay in commissioning of Project due to reasons beyond the reasonable control of the BESSD, TGGENCO may extend the SCD after examining the issue on a case- to-case basis.

Further, in case of delay in Project commissioning on account of reasons solely attributable to the BESSD, resulting in any liquidated damages/penalty levied on the TGGENCO or TGDISCOMs under the GNA Regulations, such damages/penalty shall be passed on to and payable by the BESSD.

11. Early Commissioning

The BESSD shall be permitted for full commissioning as well as part-commissioning of the Project even prior to the SCD. Early commissioning of the Project will be allowed solely at the risk and cost of the BESSD, and TGGENCO shall schedule the capacity from such early commissioned Project at the BESPA charges (for the Contracted Capacity), only in case TGDISCOM agrees to purchase the capacity at an earlier date, and at the BESPA tariff plus TGGENCO's facilitation charges in the form of Trading Margin.

In case TGGENCO does not agree to early purchase the capacity, early part/full commissioning of the Project shall still be allowed and the BESSD will be free to utilize such capacity in the market or for sale of capacity to a third party until SCD or the date of commencement of procurement of BESS capacity as notified by TGGENCO, whichever is earlier. However, early part/full commissioning of the Project and subsequent capacity procurement from the same shall be subject to the approval of TGGENCO. Such intimation regarding consent to procure BESS capacity from early commissioning shall be provided by TGGENCO within 15 days of receipt of the request being made by the BESSD, beyond which it would be considered as deemed refusal.

In case of BESSD sales storage capacity to third party, then TGDISCOMs shall not be responsible for providing charging power.

If the BESS capacity is not off taken by TGDISCOMs upon early commissioning, BESSD shall arrange for any augmentation of the Battery capacity to meet the capacity criteria mentioned at the time of SCD (i.e. dispatchable capacity on SCD date shall be 100% of the contracted capacity) and to maintain the capacity at the end of every year as indicated in **Clause 8.1(e). 4.** of the RfS. Subject to the provisions of the BESPA, in case of early commissioning, if BESSD sells any capacity to a third party, the BESSD will have to again demonstrate 100% of Contracted Capacity (as per the Commissioning Procedure) to TGGENCO from the date of commencement of off-take of capacity by TGGENCO.

12. Viability Gap Funding Mechanism

- a. In line with the sanction order, issued by the Ministry of Power dated 09.10.2024, Projects selected under this RfS will be eligible for grant of Viability Gap Funding (VGF) support by the Government for development of Battery Energy Storage Systems, and the same will be disbursed through TGGENCO.

- b. **Under this RfS, the VGF amount eligible for each Developer shall be limited to the amount calculated at INR 27 Lakhs/MWh (Rupees Twenty Seven Lakhs per MWh) or 30% of capital cost for BESS, whichever is lower.** For example, for a Project Capacity of 100 MW / 200 MWh, the maximum VGF amount to be sanctioned for the corresponding Project will be Rs. 54 Crores. BESS Developer shall submit certificate for the capital cost incurred for the Project awarded capacity, duly certified by the Statutory Auditors, within six months from the COD. In case VGF sanctioned amount is more than 30% of the certified capital cost, then VGF sanctioned amount shall stand revised to 30% of the certified capital cost and VGF disbursement amount shall be adjusted in the subsequent tranches or recovered from the developer, as applicable.
- c. VGF will be sanctioned separately for each Project, based on the Project Capacity as defined in the respective BESPA.
- d. For each Project, disbursement of VGF will be carried out in 5 tranches, as follows:

Disbursement of VGF	% of total VGF sanctioned
Upon achieving Financial Closure as per BESPA, subject to submission of Bank Guarantee to TGGENCO and possession of 90% of the total land required for the project by the BESSD.	10
Upon achieving Commercial Operation Date (COD) of the Project	45
Upon completion of 1 st year after COD	15
Upon completion of 2 nd year after COD	15
Upon completion of 3 rd year after COD	15
Total	100

- e. The VGF for each project shall be disbursed to TGGENCO, once TGGENCO certifies the achievement of the disbursement schedule milestone and submission of the required Bank Guarantee by BESSD. TGGENCO shall disburse the tranche wise VGF to BESSD only after receipt of the same from the Govt. of India and Submission of BG by BESSD as per Clause 12.f.
- f. **Bank Guarantee:** The 1st tranche of VGF will be disbursed only after submission of Bank Guarantee (BG) for 100% of the total VGF amount to TGGENCO by the BESSD. This BG is in addition to the Performance Bank Guarantee provided by the developer as per clause 19 of this RfS. Upon achieving COD of the Project, the 2nd tranche of VGF shall be released. The BG will be retained by the IA for a period of 5 years starting from the COD and will be returned after the end of 5 years, taking into account recovery of VGF, if any.
- g. If the BESSD fails to commission the project in the timeline provided in this BESPA, and project got terminated after disbursement of the quantum of VGF, TGGENCO will have full right to recover the total amount of VGF being disbursed till the date of termination of BESPA plus interest @ SBI-MCLR (1 Year) plus five percent, as

existing on the date of disbursement, accrued from the date of disbursement on the disbursed amount. In case Project capacity is being reduced, recovery of VGF amount shall be made on pro-rata basis corresponding to the capacity being terminated.

- h. TGGENCO will have the right to recover the VGF disbursed through encashment of BG, if the BESPA gets terminated within the first 5 years after COD of the Project, on account of reasons solely attributable to the BESSD. Irrespective of the year of termination within the first 5 years after COD, the VGF amount to be recovered will be fixed as the amount disbursed until COD plus interest @ SBI-MCLR (1 Year) plus 5 percent, as existing on the date of disbursement, accrued from the date of disbursement on the disbursed amount.
- i. If the Project is transferred or sold to a third party during the above tenure, the BG will be re-issued by the new entity, corresponding to the amount applicable. The sale/transfer of the Project shall be effective only on submission of BG by new entity. However, this will be subject to prior approval of sanctioning authority of Grants-in-Aid {Rule230(9)}, in view of the asset being acquired substantially out of Government Grants.

- 18.2.** The Bidder shall furnish the Bank Guarantees towards EMD from any of the Scheduled Commercial Banks as listed on the website of Reserve Bank of India (RBI) and amended as on the date of issuance of bank guarantee. Bank Guarantee issued by foreign branch of a Scheduled Commercial Bank is to be endorsed by the Indian branch of the same bank or State Bank of India (SBI).

The EMD shall be valid as per the timelines stipulated above. However, shortfall in the EMD validity, if any, up to a period of seven (7) days shall be acceptable. Further, an additional shortfall only in the following cases shall be acceptable: If the bidder has submitted the EMD with validity as per original bid submission date or as per any revised submission date, and if the deadline for submission of bids has been extended further, the Bid Guarantee shall be acceptable provided, the EMD is valid for more than two months from the actual date of bid submission and the Bidder submits the EMD extension for the requisite period within seven days from the date of actual bid submission, if required.

- 18.3.** TGGENCO has agreed to accept the EMD in the form of an unconditional and irrevocable Bank Guarantee instead of the cash deposit with the clear position intimated to the bidder that the EMD Bank Guarantee shall be encashable for being appropriated by TGGENCO in terms of the guarantee as in the case of appropriation of the cash deposit lying with TGGENCO.

18.4. Forfeiture of EMD:

19.4. The format of the Bank Guarantees prescribed in the **Format 7.3 A (EMD) and 7.3 B (PBG)** shall be strictly adhered to and any deviation from the above Formats shall result in rejection of the EMD/ PBG and consequently, the bid. In case of deviations in the formats of the Bank Guarantees, the corresponding BESPA shall not be signed.

- 19.5.** TGGENCO has agreed to accept the PBG in the form of an unconditional and irrevocable Bank Guarantee instead of the cash deposit with the clear position intimated to the bidder that the PBG shall be encashable for being appropriated by TGGENCO in terms of the guarantee as in the case of appropriation of the cash deposit lying with TGGENCO.
- 19.6.** The selected Bidder for the Project selected based on this RfS is required to sign BESPA with TGGENCO within the timeline as stipulated in **Clause 21** of the RfS. In case, TGGENCO offers to execute the BESPA with the Selected Bidder and if the Selected Bidder does not submit the requisite documents as per **Clause 21** of the RfS, or does not execute the BESPA within the stipulated time period, then the Bank Guarantee equivalent to the amount of the EMD shall be encashed by TGGENCO from the Bank Guarantee available with TGGENCO (i.e. EMD or PBG) as liquidated damages not amounting to penalty, the selected Project shall stand cancelled and the selected Bidder expressly waives off its rights and objections, if any, in that respect.
- 19.7.** The Bank Guarantees have to be executed on non-judicial stamp paper of appropriate value as per Stamp Act relevant to the place of execution.
- 19.8.** All expenditure towards execution of Bank Guarantees such as stamp duty etc. shall be borne by the Bidders/BESSDs. Any Bank Guarantee or its amendment to be submitted as part of the bidding process / contract execution, shall be effective when the BG issuance message is transmitted by the issuing bank through SFMS to TGGENCO's bank and a confirmation in this regard is received by TGGENCO.
- 19.9.** In case of Bank Guarantees issued by foreign branch of a Scheduled Commercial Bank, the same is to be endorsed by the Indian branch of the same bank or SBI, and the endorsing bank would be required to provide the SFMS confirmation.
- 19.10.** After the bidding process is over, TGGENCO shall release the Bank Guarantees towards EMD of the unsuccessful Bidders within 15 days after the completion of e-Reverse Auction. Section 5

BID EVALUATION AND SELECTION OF PROJECTS

39. Bid Evaluation

Bid evaluation will be carried out considering the information furnished by Bidders as per provisions of this RfS. The detailed evaluation procedure and selection of bidders are described in subsequent clauses in this Section.

40. Techno-Commercial Evaluation of Bidders (Step 1)

40.1. The first envelope (Technical Bid submitted online) of only those bidders will be opened by TGGENCO whose required documents as mentioned at **Clause 299** of the RfS are received by TGGENCO. Bid opening (online) will be done only after the deadline for submission of Bank Guarantee (if applicable) and/or DDs/Pay order against Cost of RfS document and Bid Processing Fee.

For e.g., if the bid submission deadline is 18:00 hrs on 31.07.2023, the online bid opening will be conducted on 02.08.2023. In case of the above deadline being a holiday, the bids will be opened on the next working day.

40.2. Subject to **Clause 28** of the RfS, TGGENCO will examine all the documents submitted by the Bidders and ascertain meeting of eligibility conditions prescribed in the RfS. During the examination of the bids, TGGENCO may seek clarifications/additional documents to the documents submitted etc. from the Bidders if required to satisfy themselves for meeting the eligibility conditions by the Bidders. Bidders shall be required to respond to any clarifications/additional documents sought by TGGENCO within 02(two) days from the date of such intimation from TGGENCO. All correspondence in this regard shall be made through email/ETS bidding portal only. It shall be the responsibility of the Bidder to ensure that the email id of the authorized signatory of the Bidder is functional. The Bidder may provide an additional email id of the authorized signatory in the covering letter. No reminders in this case shall be sent. It shall be the sole responsibility of the Bidders to remove all the discrepancies and furnish additional documents as requested. TGGENCO shall not be responsible for rejection of any bid on account of the above.

40.3. The response to RfS submitted by the Bidder shall be scrutinized to establish Techno-Commercial eligibility as per the RfS.

41. Financial Bid Evaluation (Step 2)

41.1. In this step evaluations of Techno-Commercially Qualified Bids shall be done based on the capacity charges, or the “First Round Tariff”, quoted by the Bidder in the Electronic Form of Financial Bid. After this step, the shortlisted bidders shall be invited for the Reverse Auction. The “tariff” in this section, will refer to the capacity charges quoted by the bidders.

- 41.2.** Second Envelope (containing First Round Tariff) of only those bidders shall be opened whose technical bids are found to be qualified as per the RfS.
- 41.3.** The Bidder including its Parent, Affiliate or Ultimate Parent or any Group Company will have to submit a single bid (single application) quoting a single tariff (capacity charges) in Indian Rupee per MW per month for all the Projects applied for. The tariff has to be quoted in Indian Rupee per MW per month in whole numbers only (no decimal places allowed). If it is quoted with any decimal places, the digits in the decimal places shall be ignored. (For e.g. if the quoted tariff is INR 450.34/MW/Month, then it shall be considered as INR 450/MW/ Month).
- 41.4.** In this step, evaluation will be carried out based on tariff quoted by the Bidders.
- 41.5.** On completion of Techno-Commercial bid evaluation, if it is found that only one Bidder is eligible for the next stage OR if only one qualified bid is received, the opening of the financial bid of the Bidder may be done with consent of Appropriate Commission.
- 41.6.** If the first-round tariff quoted is same for two or more Bidders, then all the Bidders with same tariff shall be considered of equal rank/ standing in the order.
- 41.7.** All Bidders with same tariff shall be eligible for reverse auction round (provided their rank is equal to or less than nth Bidder as mentioned in **Clause 42.2** of the RfS).
- 41.8.** Ranking of bidders after Financial Bid Evaluation: Following illustrates an example of ranking of bidders after financial bid opening and evaluation

Bidder	Submitted Financial Bid	Ranking
B1	₹ 210 (Tariff in ₹/ MW)	<i>L1</i>
B2	₹ 220 (Tariff in ₹/ MW)	<i>L2</i>
B3	₹ 230 (Tariff in ₹/ MW)	<i>L3</i>
B4	₹ 230 (Tariff in ₹/ MW)	<i>L3</i>
B5	₹ 243 (Tariff in ₹/ MW)	<i>L4</i>
B6	₹ 260 (Tariff in ₹/ MW)	<i>L5</i>
B7	₹ 365 (Tariff in ₹/ MW)	<i>L6</i>
B8	₹ 469 (Tariff in ₹/ MW)	<i>L7</i>
B9	₹ 570 (Tariff in ₹/ MW)	<i>L8</i>

42.Reverse Auction (Step 3)

- 42.1.** The reverse auction for the total tendered capacity shall be conducted on the portal <https://www.bharat-electronictender.com>, on the day as intimated by TGGENCO to the eligible Bidders.

42.2. The Total eligible Bidders for the reverse auction shall be decided as mentioned below:

Assuming

T = Total Techno-Commercially Qualified Bidders, and

S_k = Cumulative capacity till the 'k'th serial number bidder (not the 'k'th rank bidder) after ranking is done in ascending order from the lowest price bid, or "L1 bid" onwards

Total eligible Bidders for e-Reverse Auction

- i. In case $S_E \leq 250$ MW: all the techno-commercially qualified bidders whose financial bids are in line with the RfS provisions, will be shortlisted for e-RA. Accordingly, the no. of bidders shortlisted for e-RA, i.e., " n " = " T ".
- ii. In case $S_E > 250$ MW: The lowest ranked bidder, i.e. the bidder quoting the highest tariff (the "H1 bidder") shall be eliminated at this stage, and the remaining techno-commercially qualified bidders whose financial bids are in line with the RfS provisions, will be shortlisted for e-RA. Accordingly, the no. of bidders shortlisted for e-RA, i.e., " n " = " T "-1

Note:

- a. In case more than one bidder is ranked as "H1" bidder, i.e. such bidders are at the same tariff, all such bidders will be eliminated at this stage.
- b. The above elimination will take place subject to the condition that the total bid capacity after such elimination remains more than 250 MW. In the contradictory scenario, no elimination will take place at this stage.

For e.g. (Short listing of Bidders for reverse auction):

Scenario-1: Total bid capacity of techno-commercially shortlisted bidders = $S_T = 820$ MW

S. No.	Techno commercially qualified Bidder	Rank	Capacity (MW)	T	S_E	n	Shortlisted Bidders
1	B8	L1	150	5	250 MW	4*	B8
2	B5	L2	250				B5
3	B1	L3	140				B1
4	B4	L3	130				B4
5	B2	L4	150				

* $n = 5 - 1 = 4$ as per the above formula.

Scenario-2: Total bid capacity of techno-commercially shortlisted bidders = $S_T = 750$ MW

S. No.	Techno commercially qualified Bidder	Rank	Capacity (MW)	T	S_E	n	Shortlisted Bidders
1	B8	L1	250	3	500 MW	3	B8
2	B5	L2	250				B5
3	B1	L3	250				B1

* since if $n=T-1$, total capacity is not more than 250 MW, $n = 3$ as per the above formula

42.3. After opening financial bids and at least two hours before the scheduled start time of Reverse Auction on the same day, a system generated e-mail for invitation for Reverse Auction will be sent to those bidders who have been shortlisted for Reverse Auction based on the criteria mentioned at **Clause 42.2** above.

42.4. Shortlisted bidders for Reverse Auction will be able to login into the ISN-ETS bidding portal of reverse auction 15 minutes before the start time of reverse auction.

- a. During the 15 minutes prior to start of reverse auction process, the respective tariff of the bidder shall be displayed on its window.
- b. The minimum decrement value for tariff shall be INR 1000 per MW per Month. The Bidder can mention its revised discounted tariff which has to be at least Rs. 1000/MW / Month less than its current tariff.
- c. Bidders can only quote any value lower than their previous quoted tariff taking into consideration the minimum decrement value mentioned in the previous clause. However, at any stage, increase in tariff will not be permissible. Bidders can improve their ranking by quoting the tariff lower than their last quoted tariff.
- d. During reverse auction, the Bidder shall not have the option of changing the total project capacity while quoting tariff during reverse auction.
- e. In the bidder's bidding window, the following information can be viewed by the bidder:
 - i. Its tariff as the initial start price and there after last quoted tariff along with the project capacity for which the Bidder is qualified.
- f. The list of all the Bidders with their following details: Pseudo Identity, last quoted tariff and project capacity The initial auction period will be of 30 (thirty) minutes with a provision of auto extension by 8(eight) minutes from the scheduled/ extended closing time. Such auto extension shall be effected if by way of reduction in tariff, a Bidder causes a change in its zonal placement at that instant. The 'zones' are as defined below:

- i. **Green Zone:** This zone consists of the Bidders who may be allocated their full quoted Project capacity, subject to provisions of Clause 42, if the auction is closed at that instant.
- ii. **Yellow Zone:** This zone consists of the Bidders who may be allocated a part of their full quoted Project capacity if the auction is closed at that instant.
- iii. **Red Zone:** This zone consists of the Bidders who will not be awarded their quoted Project capacity, subject to provisions of **Clause 42**, if the auction is closed at that instant.

If no such change as described above is effected during the last 8 minutes of auction period or extended auction period, then the reverse auction process will automatically get closed.

43. Selection of Successful Bidders

43.1. Subsequent to conclusion of the e-RA process, the bidders in the “Green” and “Yellow” zones as per **Clause 42.4.f** above, will be listed in the increasing order of the tariffs discovered at the end of e-RA.

43.2. The bidders who fall within the range of (and including) the lowest tariff (L1 tariff) + 2% of the L1 tariff-hereinafter referred to as “the range”- will be declared as Successful Bidders under the RfS, subject to the following conditions:

- i. In case the cumulative capacity shortlisted as per the range exceeds SE (capacity eligible for award as per **Clause 42.2** above), the list of Successful Bidders shall be limited by SE.
- ii. In a borderline case, i.e. the scenario wherein more than one bidder is eligible to be declared as Successful Bidder at the highest tariff (the tariff at the end of the range), and the cumulative capacity exceeds SE, time stamping of bidders shall be used to limit allocation of cumulative capacity up to SE. In such cases, those bidders who are at the same tariff, but they are ranked lower than the ones which fall within the cumulative capacity limit of SE, will not be eligible to be declared as Successful Bidders.
- iii. In other words, in every possible scenario, the total capacity to be awarded under the RfS shall be limited to SE.
- iv. Time stamping- In case of a tie among two or more Bidders (i.e. their last quoted tariff being the same), they will be considered in the chronological order of their last quoted tariff during the e-RA with preference to be given to that Bidder who has quoted his last tariff during the e-RA, earlier than others.
- v. In the above case, if the time of quote also becomes exactly same among the Bidders at a tie, then the ranking among these Bidders shall be done as follows:

- Step 1: Lowest rank will be given to the Bidder who has quoted the lowest in Financial Bid (Electronic Form) and so on. If there is also a tie among any of these bidders, then the following step (Step 2) will be followed.
- Step 2: Ranking will be done based on draw of lots.

43.3. Illustration: Following example provides a possible illustration of the above methodology:

- L1 tariff discovered after e-RA: Rs. 250/MW/Month
- The range (L1+2% of L1): Rs. 255/MW/Month

Rank	Quoted Capacity (MW)	Cumulative Capacity (MW)	Time stamp	Tariff (INR/MW/Month)	Qualified as Successful Bidder
L1	150	150	NA	250	L1
L2	250	400	16:00:01	255	L2
L2	140	540	16:00:02	255	---
L3	130	670	NA	260	---
L4	150	820	NA	270	---

SPECIAL INSTRUCTIONS TO BIDDERS FOR e- TENDERING AND REVERSE AUCTION

GENERAL

The Special Instructions (for e-Tendering) supplement 'Instructions to Bidders', as given in these RfS Documents. Submission of Online Bids is mandatory for this RfS.

e-Tendering is a new methodology for conducting Public Procurement in a transparent and secured manner. Now, the Government of India has made e-Tendering mandatory. Suppliers/ Vendors will be the biggest beneficiaries of this new system of procurement. For conducting electronic tendering, TGGENCO has adopted a secured and user friendly e-tender system enabling bidders to Search, View, Download tender document(s) directly from the e-tendering portal of M/s Electronic Tender.com (India) Pvt. Limited <https://www.bharat-electronictender.com> through ISN-ETS. This portal is based on the world's most 'secure' and 'user friendly' software from ElectronicTender®. A portal built using ElectronicTender's software is also referred to as ElectronicTender System® (ETS)

Benefits to Suppliers are outlined on the Home-page of the portal.

INSTRUCTIONS

If the official copy of the documents is not downloaded from ISN-ETS Portal within the specified period of downloading of RfS and other documents, bidder will not be able to participate in the tender.
2. To minimize teething problems during the use of ETS (including the Registration process), it is recommended that the user should peruse the instructions given under 'ETS User- Guidance Centre' located on ETS Home Page, including instructions for timely registration on ETS. The instructions relating to 'Essential Computer Security Settings for Use of ETS' and 'Important Functionality Checks' should be especially taken into

cognizance.

Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of users, assigning roles to them, etc.

SPECIAL NOTE ON SECURITY AND TRANSPARENCY OF BIDS

Security related functionality has been rigorously implemented in ETS in a multidimensional manner. Starting with 'Acceptance of Registration by the Service Provider', provision for security has been made at various stages in Electronic Tender's software. Specifically, for Bid Submission, some security related aspects are outlined below:

As part of the Electronic Encrypted[®] functionality, the contents of both the 'Electronic Forms[®]', and the 'Main-Bid' are securely encrypted using a Pass-Phrase created by the Bidder himself. Unlike a 'password', a Pass-Phrase can be a multi-word sentence with spaces between words (e.g. I love this World). A Pass-Phrase is easier to remember, and more difficult to break. It is mandatory that a separate Pass-Phrase be created for each Bid-Part. This method of bid- encryption does not have the security and data-integrity related vulnerabilities which are inherent in e-tendering systems which use Public-Key of the specified officer of a Buyer organization for bid-encryption. Bid-encryption in ETS is such that the Bids cannot be decrypted before the Public Online Tender Opening Event (TOE), even if there is connivance between the concerned tender-opening officers of the Buyer organization and the personnel of e-tendering service provider.

CAUTION: All bidders must fill Electronic Forms[®] for each bid-part sincerely and carefully, and avoid any discrepancy between information given in the Electronic Forms[®] and the corresponding Main-Bid. For transparency, the information submitted by a bidder in the Electronic Forms[®] is made available to other bidders during the Online Public TOE. If it is found during the Online Public TOE that a bidder has not filled in the complete information in the Electronic Forms[®], the TOE officer may make available for downloading the corresponding Main-Bid of that bidder at the risk of the bidder. **If variation is noted between the information contained in the Electronic Forms[®] and the 'Main-Bid', the contents of the Electronic Forms[®] shall prevail.**

In case of any discrepancy between the values mentioned in figures and in words, the value mentioned in words will prevail.

Additionally, the bidder shall make sure that the Pass-Phrase to decrypt the relevant Bid-Part is submitted to TGGENCO in a sealed envelope before the start date and time of the Tender Opening Event (TOE).

There is an additional protection with SSL Encryption during transit from the client-end computer of a Supplier organization to the e-Tendering Server/ Portal.

OTHER INSTRUCTIONS

For further instructions, the vendor should visit the home-page of the portal

<https://www.bharat-electronictender.com>, and go to the **User-Guidance Center**

The help information provided through 'ETS User-Guidance Center' is available in three categories – Users intending to Register/ First-Time Users, Logged-in users of Buyer organizations, and Logged-in users of Supplier organizations. Various links (including links for User Manuals) are provided under each of the three categories.

Important Note: It is strongly recommended that all authorized users of Supplier organizations should thoroughly peruse the information provided under the relevant links, and take appropriate action. This will prevent hiccups, and minimize teething problems during the use of ETS.

SEVEN CRITICAL DOs AND DON'Ts FOR BIDDERS

Specifically, for Supplier organizations, the following '**SEVEN KEY INSTRUCTIONS for BIDDERS**' must be assiduously adhered to:

1. Obtain individual Digital Signing Certificate (DSC or DC) of Class III well in advance of your tender submission deadline on ETS.
2. Register your organization on ETS well in advance of the important deadlines for your first tender on ETS viz 'Date and Time of Closure of Procurement of Tender Documents' and 'Last Date and Time of Receipt of Bids'. Please note that even after acceptance of your registration by the Service Provider, to respond to a tender you will also require time to complete activities related to your organization, such as creation of -- Marketing Authority (MA) [ie a department within the Supplier/ Bidder Organization responsible for responding to tenders], users for one or more such MAs, assigning roles to them, etc. It is mandatory to create at least one MA. This unique feature of creating an MA enhances security and accountability within the Supplier/ Bidder Organization
3. Get your organization's concerned executives trained on ETS well in advance of your first tender submission deadline on ETS.
4. For responding to any particular tender, the tender (ie its Tender Search Code or TSC) has to be assigned to an MA. Further, an 'Official Copy of Tender Documents' should be procured/ downloaded before the expiry of Date and Time of Closure of Procurement of Tender Documents. Note: Official copy of Tender Documents is distinct from downloading 'Free Copy of Tender Documents'. Official copy of Tender Documents is the equivalent of procuring physical copy of Tender Documents with official receipt in the paper-based manual tendering system.
5. Submit your bids well in advance of tender submission deadline on ETS (There could be last

minute problems due to internet timeout, breakdown, etc.)

Note: Bid-submission in ETS can consist of submission of multiple bid-components, which vary depending upon the situation and requirements of the Buyer. Successful receipt of a bid in an e-tendering scenario takes place if all the required bid-components are successfully 'received and validated' in the system (ETS) within the scheduled date and time of closure of bidding. ETS/ Service Provider is not responsible for what happens at an end-user's end, or while a submission made by an end-user is in transit, until the submission is successfully 'received and validated' in ETS.

6. It is the responsibility of each bidder to remember and securely store the Pass-Phrase for each Bid-Part submitted by that bidder. In the event, the bids are not opened with the pass-phrase submitted by bidder, TGGENCO may ask for re-submission/ clarification for correct pass-phrase. In the event of a bidder forgetting the Pass-Phrase before the expiry of deadline for Bid-Submission, facility is provided to the bidder to 'Annul Previous Submission' from the Bid-Submission Overview page and start afresh with new Pass-Phrase(s). If bidder fails to submit correct pass-phrase immediately as requested by TGGENCO, the Tender Processing Fee and Tender Document Fee, if applicable, shall be forfeited and bid shall not be opened, and EMD shall be refunded. No request on this account shall be entertained by TGGENCO.
7. ETS will make your bid available for opening during the Online Public Tender Opening Event (TOE) 'ONLY IF' the status pertaining Overall Bid-Submission is 'COMPLETE'. For the purpose of record, the bidder can generate and save a copy of 'Final Submission Receipt'. This receipt can be generated from 'Bid-Submission Overview Page' only if the status pertaining overall Bid-Submission' is 'COMPLETE'

NOTE:

While the first three instructions mentioned above are especially relevant to first-time users of ETS, the fourth, fifth, sixth and seventh instructions are relevant at all times.

ADDITIONAL DOs AND DON'Ts FOR BIDDERS PARTICIPATING IN e-REVERSE AUCTION

1. Get your organization's concerned executives trained for e-Reverse Auction related processes on ETS well in advance of the start of e-Reverse Auction.
2. For responding to any particular e-Reverse Auction, the e-Reverse Auction (i.e. its Reverse Auction Search Code or RASC) has to be assigned to an MA.
3. It is important for each bidder to thoroughly read the 'rules and related criterion' for the e-Reverse Auction as defined by the Buyer organization.
4. It is important to digitally-sign your 'Final bid' after the end of e-Reverse Auction bidding event.
5. During an e-auction, it is recommended that a bidder submits a bid well before the scheduled time of 'Date and Time of Closure of Reverse-Auction'. Submission of a bid

near the closing time of an auction may result in failure due to any of the various factors at that instant, such as – slow internet speed at the bidder's end, slow running of computer at bidder's end, nervousness of the bidder in the last few seconds, etc. This could lead to delay in submission of data from the bidder's computer to the server. Even if the delay is of a fraction of second after the scheduled closing time, it will result in failure of bid submission. Further, please note that a bid can be submitted even if the bidding-page has not been refreshed manually, or otherwise depending on the conditions of the e-auction.

Note: Successful receipt of Bid in an e-auction scenario takes place if the bid is successfully 'received and validated' in the system (ETS) within the scheduled date and time of closure of bidding. ETS/ Service Provider is not responsible for what happens at an end-user's end, or while a submission made by an end-user is in transit, until the submission is successfully 'received and validated' in ETS.

6. Pre-requisite for participation in bidding process

- Bidder must possess a PC/ Laptop with Windows 7 professional operating system and Internet Explorer 8 or 9 for hassle free bidding. Bidder is essentially required to effect the security settings as defined in the portal.
- The Bidder must have a high-speed internet connectivity (preferably Broadband) with internet explorer to access ISN-ETS Portal for downloading the Tender document and uploading/ submitting the Bids.
- A valid e-mail ID of the Organization/ Firm Vendors Training Program

		NO OF BLOCK IN COLUMN Z IS NOT ZERO	34		
		SYSTEM AVAILABILITY	0.87		

Note: For calculating the System Availability for day/month, schedule provided by Procure/SLDC to be considered. Shortfall in System Availability will be calculated as per below methodology. DSM / UI charges shall be treated separately as per applicable regulations and paid by BESSD.

If TGDISCOM has scheduled for charging of BESS & discharge of BESS and BESSD has not charge & discharge the BESS according to schedule then TA will be calculated as $TA = (X/Z) + (Y/Z)$ for that time block.

If TGDISCOM has not scheduled for charging of BESS & discharge of BESS then TA will be NA for that time block.

If TGDISCOM has not scheduled for charging of BESS and BESSD has taken charging power from grid then TA will be NA for that time block.

If TGDISCOM has not scheduled for discharge of BESS and BESSD has discharge power to the grid then TA will be NA for that time block.

If TGDISCOM has scheduled for charging of BESS & discharge of BESS and BESSD has charge & discharge the BESS near to zero or zero then TA will be treated as Zero for that time block.

i is the i^{th} Time block in the day.

The System Availability for the day is calculated as the mean of **Column TA**, for all time-blocks where **Column Z is not zero**.

From the above table, Day's System Availability = 0.87

Similarly, the System availability shall be calculated for Monthly, 2880 time-blocks (96*30) in a Month (30 Days in a month considered in above), excluding time-blocks where Grid is unavailable or in case of Force Majeure.

Assuming the following parameters:

- a. Total Contract Capacity = 250 MW, **C**
- b. Quoted monthly Capacity charges = 5 lakhs/MW/month, **D**
- c. Annual system availability (as per procedure above) is calculated to be 0.87, **B**
- d. $n = 12$

Liquidated Damages on account of shortage in annual system Availability, as calculated from formula provided in **Clause 8.2**:

$$\text{Liquidated damages} = (A - B) \times C \times D \times n \times 2$$

b. System Efficiency

$$\begin{aligned} &= (0.95-0.87) \times 250 \times 5 \times 12 \times 2 \\ &= 2400 \text{ lakhs} \end{aligned}$$

The present illustration is for calculating the Daily System Efficiency as demonstration only. The same methodology shall be used for calculation of monthly system efficiency as per **Clause 8.1.3**.

$$\text{System Efficiency} = \frac{\text{Total of Column (Y)}}{\text{Total of Column (X)}} = \frac{3295}{3905} = 0.8437 \sim 0.84 \text{ (rounded off to 2 decimal}$$

places).

Assuming:

- a. monthly System Efficiency = 0.84,
- b. Total Monthly Drawl from Grid (Charging Power) = 41.1 MUs

Liquidated Damages is calculated @ APPC tariff for excess loss of energy considering expected System Efficiency to be 85%

Excess conversion losses = $(0.85-0.84) \times$ Total Drawl from the grid in the month (i.e. Charging Energy)

$$\begin{aligned} \text{Liquidated Damages for the month} &= \text{Rs. } 0.01 \times 41.1 \times \text{APPC tariff for e.g. Rs. } 2) \\ &= \text{Rs. } 0.822 \text{ Millions} \\ &= \text{Rs. } 8.22 \text{ lakhs} \end{aligned}$$
